## Improvements

### Sales Order

#### **NS-2889 Updated Transaction Items List View to Honor Item Properties**

Previously the Transaction Items list view allowed any items to be updated with variable weight and with decimal values. The Transaction Items list view was updated to honor the following Item Properties:

- Variable Weight
- Require Whole Units

## Bug Fixes

### Purchasing

#### **NS-2932 Fixed Vendor Address Saving**

Due to a bug, new addresses were not saved on Vendor Record Views. The issue is now fixed.

#### **NS-2949 Fixed Fisherman Activity Inquiry**

Previously, the Fisherman Activity inquiry duplicated Delivery Ticket and Payment transactions. The issue is now fixed.

## Sales Order

### NS-2946 Fixed Sales Order Substitute Item Deletion

Previously, when a substitute line item was deleted from a Sales Order transaction, the substitute item was re-added to the transaction after the transaction was re-saved. The issue is now fixed.
